

# BETABOX LEARNING

## ALABAMA PROGRAM SUMMARY

Calling Alabama LEAs! Betabox Learning partnered with ALSDE to bring hands-on learning to 100+ schools. We've opened up applications to participate in this exciting STEM Education program.

### About Betabox Learning

The mission of Betabox Learning is to spark and sustain high-quality hands-on learning experiences in the lives of students everywhere. We deliver hands-on learning STEM curricula in the form of in-person Onsite Field Trips. Our Onsite Field Trips are followed by online professional development and coaching for teachers through an online membership portal.

### Program Structure

This Alabama GEER II Pilot has been launched in order to help mitigate impacts of learning loss amongst rural and underserved schools throughout Alabama.

- 01** Application and Enrollment of your LEA in this hands-on STEM education program.
- 02** Kickoff Call with Betabox, a custom STEM Gaps Assessment, Local Programs Analysis, and Custom Curriculum design.
- 03** Hands-on Betabox Onsite Field Trips at your schools. Provides a memorable hands-on learning experience that helps build STEM Interest and Awareness.
- 04** Access to the Betabox Classbox Portal. Access professional development, standards aligned hands-on learning lesson plans, and the ability to 'checkout' hands-on learning equipment from Betabox.

## Cost for Participation

If your school's application is approved, there is **no cost** after ALSDE reimbursement.

## Eligibility Requirements

- ✓ Public Alabama middle school or high school.
- ✓ District level participation and assistance in scheduling and evaluation.

## SECOND ROUND APPLICATION DUE DATE

**August 1st, 2023**

## Where Do I Learn More?
